OBJECTIVE

Software Engineer with 1 year of experience seeking a collaborative team environment to leverage my technical knowledge and problem-solving skills to contribute to the company's success by solving real-world problems.

TECHNICAL SKILL

Programming Language	Javascript, C, Java
Framework/Library	NodeJS/ExpressJS, NestJS, NextJS, ReactJS, Bootstrap, Tailwind CSS, JQuery
Version Control	Git, Github
Others	SOLID principles, DI, Repository, Service Locator Design Pattern

WORK EXPERIENCE

- Floor Plan 3D** Apr 2023 - June 2023
Internship project: Back-end Developer
 - Developed a website facilitating the creation of 2D blueprints and their conversion into 3D designs.
 - Utilized React Konva to enable user interaction with the 2D blueprints.
 - Researched and implemented algorithms for efficient operation on blueprints.
 - Constructed the user interface (UI) of the website using ReactJS.
 - Acquired proficiency in storing and managing blueprint states with high performance through Redux.
- Bui Dish** Jun 2023 - Dec 2023
Team project: Full-stack Developer
 - Developed an E-Commerce website tailored for a restaurant using Next.js to create a dynamic and interactive front-end.
 - Implemented Node.js for the backend, enhancing the architecture's comprehensiveness and scalability.
 - Leveraged Dependency Injection (DI) and Service Locator design patterns to optimize project structure and maintainability.
 - Utilized MongoDB as the Database Management System to efficiently manage data.
 - Managed source code effectively using Git and GitHub throughout the development process.
- Pedinnail** Jan 2024 - Jul 2024
Team project: Full-stack Developer
 - Developed a modern E-commerce site for nail accessories.
 - Implemented NestJS (ExpressJS) for a scalable and maintainable backend architecture.
 - Utilized TypeORM as an ORM to streamline database interactions with PostgreSQL.
 - Integrated Cloudinary cloud services for efficient image uploads and optimization.
 - Designed and implemented database entities using PostgreSQL for product management, user accounts, and order processing.

EDUCATION

- Nguyen Duy Hieu High School** Sep 2018 - May 2021
GPA: 8.2/10
- FPT University** Sep 2021 - Now
Major : Software Engineering

AWARD

- Third prize:** Provincial Excellent Student Contest in Physical for High lever April 2021
Quang Nam, Viet Nam
